

## **Problem**

- Required Discrepancy in maintaining internal projects
- Lack of visibility on project status

## **Solution**

Input Zero Technologies implemented ServiceNow ITBM modules – Portfolio Management, Demand Management, Project Management, Cost Management. Created custom Dashboard and Reports

Stakeholders were able to raise a demand on ideas generated by them. ServiceNow platform accelerated the approval process while providing an easy access to information pertaining to various portfolios and the projects under it such as stakeholders, scope of project, budget phase, timelines, etc. Detailed report for leadership view on status of each project in a graphical format.

## **Result**

- Increased Accessibility
- Streamlined processes
- Wide Visibility on the statuses of all the projects
